

# THE BLAIRMORE ENTERPRISE

VOL. XVIII, NO. 36.

THE BLAIRMORE ENTERPRISE. THURSDAY, SEPTEMBER 5, 1927

\$2.00 PER ANNUM

## ST. LUKE'S CHURCH, BLAIRMORE

Services for September, as follows:  
Sunday, September 11.—Holy Communion at 11 a.m.

Sunday, September 18.—Matins at 11 a.m.

Sunday, September 25.—Litany and Holy Communion at 11 a.m.

Sunday School will commence on Sunday next at 10 a.m. It is hoped that all intending pupils will try and

Mrs. Paul and Miss Rose Wintgens desire to thank the many friends for expressions of sympathy with them in the loss of both their parents and for the following additional flowers: sprays, Mr. and Mrs. R. Bielli, Mr. and Mrs. Piret, Mr. and Mrs. William Antle; wreaths, Mr. John Frederiksen, Mr. and Mrs. Charles Sartoris. Flowers, Mr. and Mrs. Milnes, Bellevue; Mr. and Mrs. Kroll, Frank; Mr. and Mrs. P. Chardon, Blairmore. "Gates Ajar," the family.

An accident occurred near Claresholm last week, when a car driven by N. Dabstoff, of Lundbreck, upset. Dabstoff was knocked unconscious and Anyone who will help in the Sunday has since been in a precarious condition in a Claresholm hospital.

A. D. CURRIE, Incumbent.

## BELLEVUE'S TENTH EXHIBITION LABOR DAY'S BIG ATTRACTION

Despite the many events being tagged throughout The Pass on Labor Day, the tenth annual exhibition of the Bellevue and District Horticultural, Industrial and Poultry Society proved to be the biggest drawing card. While the entries were less in numbers than last year, yet the various exhibits on the average appeared to be of a higher order and the task of the various judges was indeed a difficult one.

Mr. W. R. Reader, of Calgary, acted as judge for the flower section; Mr. Schulz, of the Lethbridge experimental farm, for the poultry section; Mr. Eric Muncester, of Blairmore, for the art and school work, and Mrs. W. R. Reader, of Calgary, and Mrs. L. L. Morgan, of Blairmore, for the ladies' section.

Thousands of people from all parts of The Pass visited the exhibition during the day, and all were delighted with the splendid showing.

Rabbits and poultry was an added feature this year and this will be extended next season to include dogs and cats.

In a later issue we hope to publish a complete list of events and prize winners, as well as the list of successful competitors in the sports programme. We also hope to publish at a later date the results and winners in the first aid competitions held on Labor Day, which proved very interesting and in which a number of local teams took part.

The carnival held in the Bellevue Arena immediately following the exhibition, and which continued during Tuesday and Wednesday evenings, was a decided success. The carnival was staged under the auspices of the Bellevue Branch of the Canadian Legion, B.E.S.L.

The five-mile road race was won by Raymond Blake, son of Mr. and Mrs. Harry Blake, of Bellevue, his time being 32 minutes and 41 seconds. Kerr, who accidentally tripped before the finish, made 33 minutes and 10 seconds. Liebergall came third, Russell fourth, Connors fifth.

## MINING CONGRESS PARTY IN BLAIRMORE TOMORROW

One of the main sections of the second triennial Empire Mining and Metallurgical Congress will reach Blairmore from Lethbridge tomorrow (Friday) at 2:35 p.m. on the Blue Special train.

The party on the Blue Special will comprise about 210 persons, from different parts of the world, including England, Wales, South Africa, Australia, Siberia, United States, Canada, Scotland, Japan, India, France, Malay States, Transvaal, Tasmania, Russia, Belgium and Czechoslovakia.

Here some fifty automobiles will be placed at the disposal of the party. Those who are interested in the washing of coal will be taken through the following pneumatic coal-cleaning plants: West Canadian Collieries' plants at Bellevue and Blairmore, the International Coal & Coke Company and McGillivray Creek Coal & Coke Company plants at Coleman. Those who do not desire to inspect these plants will be conveyed to the Frank rock slide, golf courses, tennis courts and other points of interest or amusement. Between seven and nine p.m., a banquet will be served at the Tea Kettle Inn under the auspices of the Rocky Mountain Branch of the Canadian Mining Institute. Settings will be arranged for at least 250 persons, which will include representatives of the various local coal and other industries and musical and vocal talent. A splendid programme has been arranged, which will include addresses from some of the leading speakers of the party.

The Blue Special is scheduled to leave Blairmore for the west at 11:15

## KIDDIES TO BE ENTERTAINED BY LOCAL ELKS AT CIRCUS

The kiddies of the town, some eight hundred strong, will be the guests of the local Elks this afternoon to free rides at the Conklin & Garrett All-Canadian Circus. This afternoon, from 3 to 6, kiddies will be admitted to all rides and shows for five cents and in addition to this will receive pass tickets from the Elks, which will give each child two rides or admit them to any of the shows on the grounds. The Elks have appointed a committee to look after and see to her safety.

The circus is here for three days, arriving this morning and will be located on town grounds just south of the railroad and west of the cement plant. The circus comprises fifteen caravans and no doubt will attract large crowds.

## DEATH OF MRS. H. C. JAMES

The death of Dorothy Edith, aged thirty-one, beloved wife of Mr. Harold C. James, of 515 Seventh Street south, Lethbridge, occurred on Sunday last, following an operation. The remains were laid to rest in the Anglican cemetery, Lethbridge, yesterday afternoon.

Mrs. James was well known in Blairmore, she and her husband residing here for a number of years prior to their moving to Lethbridge. She was a member of Crowview Rebekah Lodge.

The late Mrs. James was born in London, England, and had been a resident of Southern Alberta for about eight years. She is survived by her husband and five-year-old daughter.

SUBSCRIBE TODAY!  
and will join the Red Special at Kimberley.

## GOVERNMENT LIQUOR CONTROL ACT OF ALBERTA

### APPLICATION FOR BEER LICENSE

PUBLIC NOTICE is hereby given that the undersigned intend applying to the Alberta Liquor Control Board for a license to sell Beer by the glass, or open bottle for consumption in conformity with the provisions of the Government Liquor Control Act of Alberta, and regulations made thereunder, with respect to the following premises:

The Cosmopolitan Hotel, brick building situated on Lots 1 and 2, Block 4, Plan 3319-1, corner of Sixth Avenue and Victoria Street in the Town of Blairmore, Alberta. The beer salesroom to be on the ground floor on east side of hotel, having entrance from the hotel rotunda and from Victoria Street front.

License at present held by J. S. Stevenson.  
DATED at Blairmore, Alberta, this Sept 1-8-15-22] Applicant.

The Lethbridge Brewing Co. will likely erect a plant at Nasimbo, B.C.

A Calgary woman at the Bellevue exhibition came upon the black and red currants entered by Mr. S. Hamble and remarked to her hubby: "My, do they grow Malaga grapes here, too?"

Inspector Field, R.C.M.P., and Mrs. Field, had a very narrow escape on Monday, when their car went over an embankment near Invermere. Mrs. Field is suffering somewhat from a shaking up, but the inspector escaped with practically no injury.

1st day of September, 1927.  
JOHAN L. JOHANSEN and JOHN F. MAHONEY.  
DATED at Blairmore, Alberta, this Sept 1-8-15-22] Applicant.

## SELECT SITE FOR MOORING MAST NEAR MONTREAL

Ottawa.—Hon. J. L. Ralston, Minister of National Defence, has announced that negotiations for the purchase of a parcel of land near Montreal, containing approximately one square mile for the site of the mooring mast, have been practically completed. The site selected is that recommended by Major G. H. Scott and A. R. Gibbs, officers of the air ministry, who visited Canada in the early summer to assist in the choice of a suitable location.

It lies on the South shore of the St. Lawrence River, some six miles from the centre of the city of Montreal, approximately four miles from the Longueuil Ferry wharf and adjacent to St. Hubert Station on the main line of the C.N.R.

It is part of an open, level plain, well drained, of good surface and in every way suitable for its purpose, the Minister stated.

### Uniform Rate Necessary

Present Restrictions Hamper British Immigration Says Dr. Black

Montreal.—"Restrictions which apply to the low passage rate render it difficult, if indeed not impossible, for any considerable number of British people to avail themselves of that rate to come to Canada and settle here on the land," said Dr. W. J. Black, director of colonization of the Canadian National Railways, who has returned from Europe.

Dr. Black suggested that a flat rate should be adopted declaring a uniform rate was necessary and that application of such a rate should be without any complex series of restrictive regulations.

"Due to the restriction of entry to the United States," said Dr. Black, "Canada now has an opportunity to secure a considerable proportion of the stream of immigration which heretofore has flowed into the United States and which has greatly helped develop that nation during the past 50 years."

### Mounties Return From Far Northern Interior

Opened a New Police Post On Liard Lake

Prince Rupert.—After spending fourteen months in the remote regions of the Northern Interior during which time they opened a new post of the Royal Canadian Mounted Police at Lower Liard on Liard Lake, Inspector T. V. Sandys-Wunsch, Sergeant Paton and Constable Cooper have returned to Vancouver, where they were John Too, an Indian, who had gone insane in that wilderness, who will be lodged in the hospital.

Inspector Sandys-Wunsch, it will be remembered, figured prominently in the witchcraft murder case which was tried in Prince Rupert two years ago and which resulted in the conviction for manslaughter of Big Alex, who has since been released and returned to the Liard River district.

### New Laying Record

Saskatchewan Barred Plymouth Rock Hen Is New Champion

Saskatoon.—A barred Plymouth Rock hen owned by the University of Saskatchewan has made a new record for egg production. Competing her pullet year, this new champion has to her credit a total of 339 eggs in 365 days. Not only is this a new record for Barred Plymouth Rocks, but as "one" as is known it is a new record for all heavy breeds of poultry.

This bird was bred and raised by the poultry department of the University. She is known as H-2403.

Asked To Appear In Movies

London.—King George and Queen Mary have been asked to appear in a "speaking movie," which will be shown in London this month in connection with the admiralty's full dress film reconstruction of the battle of Coronel and in Falmouth. The talking pictures are expected to be the sensation of the year.

Has Population Of Million

Montreal.—In the preface to the annual report of 1926, which has been published and distributed by the city treasurer, are found statistics concerning Montreal which show it to be one of the nine largest cities on the North American Continent with a population of 1,000,000.

W. N. U. 1687

## Popularity Of Lindbergh

Seven Million Dollars Involved In Business Offers Since He Made Famous Flight

New York.—Charles A. Lindbergh can have \$1,000,000 by going through a real marriage ceremony in front of a movie camera and \$6,000,000 more by accepting the business offers tendered him since he made his non-stop trans-Atlantic flight, says Commander Pittsburgh Green, the lone eagle's chief secretary, in a popular Science Monthly.

Commander Green, who has completed a check-up on mail and other communications to Lindbergh, says that among the 2,500,000 letters and 100,000 telegrams and cables received, were at least three proposals that the young flier join in an attempt to reach the moon by rocket shot from the earth. Lindbergh also received thousands of proposals of marriage. The aviator's mail included also 14,000 packages.

Lindbergh poems, sent in his mail, numbered 5,000 and upwards of 6,000 was received in return postage. More than 500 "close relatives" asked him to "do something for them." More letters came from women than from men and letters from girls outnumbered those from boys four to one.

Col. Lindbergh answered many of the letters in longhand, but thousands found their way to the waste basket.

### New Donkhorbor Leader

Son Of Former Leader Leaves Russia For Canada

Yorlton.—Peter Verigin, new leader of the Donkhorbor, second son of the former leader of the Donkhorbor, in Canada, leaves Moscow September 2, for this country, according to word received by a prominent member of the Donkhorbor colony near Yorkton. He will sail from Southampton on the Berengaria for New York September 10. Permission for Mr. Verigin to leave Russia was extremely difficult to secure from the Soviet Government. Negotiations to date have been under way ever since the death of his father in a railway accident two years ago, and many obstacles had to be overcome. Mr. Verigin will be accompanied by Paul Ivanovich Birkhoff, as travelling companion.

### Makes Altitude Record

French Aviator Attains Height Never Reached By Man

Paris.—Aviators intent on breaking the world's altitude record must climb higher than 42,651 feet in consequence of the feat of Jean Callo who topped his own record by almost 1,700 feet. Callo's former altitude record was 12,442 metres, the new mark is 13,000 metres.

"Never again," he don't want to fall off the earth," he exclaimed the diminutive Frenchman when informed that he had attained a height never before reached by a human being.

### Would Control Flights

Washington.—Rigid control of all future trans-oceanic air flights will be insisted upon by the National Aeronautic Association which announced that while it disclaimed any desire to discourage "individual initiative in the quest for new records," it would demand fitness of flying equipment and competence of personnel as indispensable conditions to sanctioning such flights.

### Sugar Industry For B.C.

New Westminster, B.C.—Arrangements for the establishment of a beet sugar industry in the Fraser Valley by an English company, capitalised at \$2,000,000, have been completed, according to word received by the New Westminster Board of Trade. The company will acquire a large area in the Fraser Valley worked by English and Scotch labor. The plant, it is believed, will be located in New Westminster.

### Poultry Congress a Success

Ottawa.—It is now stated by those who had charge, that the third World's Poultry Congress, held in Ottawa from July 27 to August 4, was a greater success than even its sanguine promoters predicted. Forty-two countries sent delegates and live birds from the poultry farms of King George, the Prince of Wales and various reigning monarchs of Europe.

### Drink More Milk

Minneapolis.—Mrs. Ella Boode, Brooklyn, was re-elected president of the National Women's Christian Temperance Union, in annual convention here. Milk drinking has increased 17 per cent and for cream consumption also has gained since prohibition went into effect, said Miss Ella A. Marshall, Chicago, in an address before the convention.

## ATTEMPT TO CIRCLE THE GLOBE

Here are the latest attempt to fly across the Atlantic, William Brock, (left), and Edward F. Schlee. Says their Stinson-Detrolleur plane, similar to craft in the Windsor-to-Windsor and London-to-London dashes, they recently flew across the Atlantic from Newfoundland to England in an attempt to circle the globe in 15 days.

## GOOD CROP NOW BEING GARNERED IN PRAIRIE WEST

Ottawa.—Canada is in a fair way to garner another good crop, says a review issued by the Department of Agriculture based on reports submitted by the superintendents of the Dominion Experimental Farms. The survey includes wheat, coarse grains, potatoes, hay and forage, apples, tobacco, sugar beet, and turnips and covers all the provinces.

The wheat producing provinces of Western Canada are referred to separately in the review. In Alberta it is stated very heavy yields are indicated in all parts of the province. No frost or rust damage is in evidence. Cutting is well under way in the South and just started in the central part of the province. A bumper crop in the Peace River region is indicated. In fact, says the report, "the province, as a whole, seems to be ready to harvest a nearly record crop of good quality wheat."

Cutting is general in Southern Saskatchewan, but just beginning in the more northerly parts according to the review. In Saskatchewan some injury has been done by frost and rust but this is not likely to cause any great damage. On the whole, prospects in Saskatchewan are for a very good crop, with yields somewhat above the average. With respect to the Manitoba wheat situation the bulletin states that about 40 per cent of the wheat crop has been cut in the Southern part of the province and promises to be up to average.

The wheat crop in Quebec and Eastern Ontario will be about average, it is stated. In Western Ontario it is considerably better than last year.

In Central Manitoba, the crop is heavy and is being injured to some extent by rust. In the more northerly parts the crop is rather late and may be affected by rust and frost.

The wheat crop in Quebec and Eastern Ontario will be about average, it is stated. In Western Ontario it is considerably better than last year.

Huge Sum For Defence

New York.—The seven year vain struggle to save Sacco and Vanzetti from death in the electric chair costed expenditure totalling more than \$350,000, Alfano Felical, treasurer and founder of the Boston Defence Committee, announced here.

## Parties Prepare For Election In Ireland

Voting Will Take Place In Free State September 15

Dublin.—All the political parties of the Free State have been devoting their energies the last few days to preparations for the legislative elections called for September 15, and the campaign has begun in earnest.

William T. Cosgrave, president of the Free State government, and nearly all his ministers, were to start extensive speech making programs throughout the country.

The Fianna Fail, Republican party of Eamon de Valera, has already published the names of 49 candidates. All the Laborites are recontesting their seats and will be reinforced by other candidates. The government has not yet announced its candidates and Capt. William Redmond has given no indication of his plans for the National League Party.

## Complain About History Books

Report Says Text Books Used In Chicago Are Pro-British

Chicago.—Histories used in Chicago public schools were indicated as anti-American, pro-British and "grossly distorted" in an exhaustive report filed with Mayor Thompson. John J. Gorman, former congressman who was commissioned by the Mayor to investigate the text books, wrote that they omit facts and distort and minimize many of the real characters, events and ideals hitherto held sacred to American history.

The report came "out on the heels of the suspension, under charges of insubordination, of William McAndrew, superintendent of schools, whom Mayor Thompson has assailed as "the stool pigeon of King George" and the instigator of alleged anti-American teaching in the schools.

## Crop Pest Control

Meeting Held At Saskatoon To Discuss Problem

Saskatoon.—Entomologists representing the prairie provinces, Ontario, Minnesota, Montana, and North Dakota, met at Saskatoon in annual conference of the Great Plains Crop Pest committee at the University of Saskatchewan. They were in session here for two days, during which time they discussed problems of control and eradication of farm crop pests. There have been no very serious outbreaks of pests during the present season, delegates stated at the opening session.

## Ship Cream To England

Quebec.—The Provincial Department of Agriculture announces that its experiments, conducted in co-operation with the Development Branch, Canadian Pacific Railway, in the shipping of sweet cream to England, comprising four separate consignments, have been entirely successful, the cream arriving in uniformly good condition. Now that the possibility of this new development has been demonstrated it is expected that commercial interests will enter the field.

## GERMAN ENTRANT IS WINNER OF THE MARATHON SWIM

Lake Shore, Toronto.—Four miles and four and a half hours ahead of his nearest rival, Ernst Vierkötter, the German swam across the finish line to victory and a cash prize of \$20,000, at the William Wrigley twenty-one mile marathon swim through icy cold Lake Ontario waters. Vierkötter's time was 11 hours, 43 minutes and 28.5 seconds, a record for the distance. Vierkötter signed a pool contract covering 1,000 acres.

## Human Fly Reels Hotel

Los Angeles, Cal.—A human fly burglar descended from the roof of the hotel at 215 Grand by finger and toe holds, entered the rooms of five sleeping guests through the windows, and obtained \$300 in cash and jewelry valued at \$15,000. Detectives with surprise nets in the room and the dust of window ledges were their only clues.

## Saved Millions For Employers

Detroit, Mich.—James Everett Smith, steel expert for the Ford Motor Company, died Monday of a lung illness. Smith saved the company \$26,000,000 in four years by use of a new method to harden steel, according to a statement written by Henry Ford in his autobiography.

## ANTI-SMUGGLING PLANS DISCUSSED AT WASHINGTON

Washington.—The Royal Canadian Customs Commission left for home after holding four formal meetings and several informal meetings with state, customs, coastguard and prohibition authorities here. It was permitted to look into the workings of the United States anti-smuggling machinery. It investigated the efficiency of the United States customs system in general and three or four branches of the system in particular. It received some suggestions from the United States authorities for improvement of conditions along the border. The commission will take all these things into consideration while it is preparing its report to the Canadian Government later the close of the Ottawa sittings.

The commission while in Washington confined itself strictly to inquiry into procedure in the United States and any negotiations for a change in existing agreements between Canada and the United States will be instituted later on by the Governments themselves.

Little information has been given out so what actually happened at the conference here, but in unofficial talks with newspapermen, United States officials have let it be known that they are working towards tightening up of the 1924 anti-smuggling treaty between Canada and the United States. Assistant Secretary of the Treasury, Seymour Loman, in charge of customs and coastguard patrols, announced that the border patrol would be increased from 10 to 400 men in Government Lake Huron district, and prophesied that the United States would greatly increase the number of its coastguard vessels on the Great Lakes if the smuggling of liquor by this route continued.

It is known that the United States would like Canada to establish her own consular agents in this country. The commission no doubt has been told that this would make it easier to prevent smuggling both ways and that consular certificates would go far toward minimizing fraudulent invoicing and double invoicing, which methods are now being used to cheat the Canadian Government of revenue.

## Noted Explorer Is Slain

Reported That Members Of German Expedition To Interior Of China Are Massacred

New York.—The New York World says Dr. Wilhelm Fiechener, former staff officer of the Imperial German Army and noted explorer, and a number of the members of an expedition he was leading, have been reported massacred by natives of the western part of Szechuan province, China.

The World's wireless station picked up a German message to the effect that a British resident of Sikim in the northern part of India, just south of Tibet, had reported that Fiechener and his party had been killed.

## Alleged Spies Arrested

Leningrad, Russia.—The political police have arrested an alleged group of 26 spies, charged with espionage in behalf of Germany and assistance in the Finnish. Most of the accused, including several women, hold various positions in the army, navy and civil service institutions, and are alleged to be in charge of a British naval captain with headquarters in Finland.

## Under Royal Patronage

Calgary.—The Alberta Wheat Pool is now under Royal Patronage, the announcement being made in the current issue of the U.F.A., the official organ of the United Farmers of Alberta. It announces Prof. W. L. Carlyle, the manager of the B.P. Rally, on behalf of H.R.H. the Prince of Wales, who has signed a pool contract covering 1,000 acres.

## Human Fly Reels Hotel

Los Angeles, Cal.—A human fly burglar descended from the roof of the hotel at 215 Grand by finger and toe holds, entered the rooms of five sleeping guests through the windows, and obtained \$300 in cash and jewelry valued at \$15,000. Detectives with surprise nets in the room and the dust of window ledges were their only clues.

## Saved Millions For Employers

Detroit, Mich.—James Everett Smith, steel expert for the Ford Motor Company, died Monday of a lung illness. Smith saved the company \$26,000,000 in four years by use of a new method to harden steel, according to a statement written by Henry Ford in his autobiography.

## Fore Replaces War Whoppes

But for the Indians may have watch this young chief driving from the eight tee on the Banff Golf Course, there is no saying whether they would gruff in disgust or with approval. Chief Big Buffalo, who is seen about to drive. Chinks they would be envious and would bemoan their fate at having to sleep on while their grandsons seat whistling drives over stretches that once echoed with their war whoppes.

## "Fore" Replaces War Whoppes

## "HUNGARIANS" ARE EXTENDING RANGE

The "conflict" between the imported Hungarian partridge and the native prairie chicken in Saskatchewan is being closely watched by provincial government authorities and there is much diversity of opinion as to whether the newcomer is likely to dispossess the native of its nesting places, according to a report from the game commissioner of that province, received by E. G. Poole, fish and game representative of the Canadian National Railways at Montreal. At the same time, it will be of interest to sportsmen everywhere, to learn that an open season on these birds has been declared, corresponding with that for prairie chicken. This allows shooting during the last half of the month of September and the entire month of October, this year, with a bag limit of 15 birds per day, 75 in the season.

The report states that there is no doubt evidence of continued increase in the number of Hungarians and also of their extended area of occupation. Public opinion regarding the desirability of the newcomers is still divided. Many people believe they are guilty of repeated violence toward the native wild bird, particularly during the nesting season. Cases are reported of actual attacks on the nests and young of prairie chicken, though other observers report the two classes of birds feeding together in peace.

"Summing up all the evidence," the game commissioner states, "one is led to the conclusion that for the greater part of the year there is little or no conflict between the two varieties, or any undue aggressiveness on the part of the Hungarian. It does appear, however, that during the nesting season, which is, of course, the crucial period, the zeal of the Hungarian in the defence of his home amounts to intolerance and that no other bird may with impunity nest in close proximity. It will be cause for regret if it is proven as time goes on that the advent of the Hungarian is resulting in the disappearance of our own native grouse."

The department of the interior estimates Alaska's 1926 gold output at \$6,629,000, against \$6,380,281 in 1925.

## ALLOW ELK HUNTING IN SASKATCHEWAN

Elk have become so numerous in Northern Saskatchewan that an open season, permitting licensed hunters to take not more than one adult male animal each, has been declared this year, according to advice received by E. G. Poole, fish and game representative of the Canadian National Railways, from the game commissioner at Regina. The open season for 1927 is from November 15 to November 30, inclusive. The last hunting of elk was permitted in 1918.

The game commissioner's report states: "The elk situation continues to improve. In their favored localities they are becoming quite numerous, a regrettable feature being that their choice of locality brings them into conflict with agricultural development, and repeated and serious complaint is made by settlers throughout much of their range of great damage being wrought to standing crops and to crops in stock, as well as to hay in the stack."

"So frequent and so urgent had these complaints become that it was felt some measure of relief should be attempted, and the game act has been amended, making provision for a short open season of elk this autumn (1927) when licensed big game hunters may take not more than one adult male elk. It is hoped that this may result in a scattering of the elk into new and more remote territory where they will not come into conflict with civilization. The bag limit of not more than two big game animals in all per license remains unchanged."

"James R. Clare, a fur trader in the Red Deer Lake district, says of the elk: 'These animals seem to be spreading all over our country, and one sees them almost daily wherever one travels, in places where they have not been seen in the last twenty years.'"

Mr. Clare also states that moose in his district are very plentiful. Red Deer Lake district is at the boundary of Saskatchewan and Manitoba, near Hudson Bay Junction, where the Hudson Bay line cuts off from the Canadian National Railways into Prince Albert, Saskatchewan.

## RAPIDITY

About a month ago the Review announced the marriage of W. J. Bartlett, editor of The Blairmore Enterprise. Last week's Enterprise announces the marriage of the daughter of Mr. and Mrs. W. J. Bartlett. We are now more anxious than ever to get that new book which Mr. Bartlett is said to be writing.—Redcliff Review.

Nanton will have a steam laundry in operation before the end of the year.

## OLDSMOBILE PRICES REDUCED

With price reductions that run as high as \$165 on certain body types the Oldsmobile Six drops from the medium-priced automobile field into a low-cost class where sales possibilities are almost unlimited. New items of equipment and further refinements that are announced simultaneously with the startling price reduction make it possible for the first time to obtain at a price under \$1200 a six-cylinder closed car with every desirable accessory included in the purchase price. Such a car is the Jubilee series Oldsmobile coupe.

New smartness, dash and beauty have been added by improvements in body, design and the introduction of new color combinations. The same basic Oldsmobile lines that have proven so popular have been retained, but beautifying curves have enhanced the contour, for example, of the rear of the body. Narrower front corner posts have been achieved without sacrifice of strength. Careful attention to details in the interiors has brought new luxury. The finish of the closed cars includes harmonizing tones in duo on the instrument board, cowl and door and window frames. On some models this color harmony is further enhanced by finger boards, or walnut-finished strips inlaid on doors and under windows. Blue plush upholstery fits in admirably with the interior color scheme.

The present trend towards brightness and individuality in motor cars is emphasized in the exterior Duo combinations. The landau, for instance, has as its principal color ridge blue with window recesses finished in London smoke. These light shades are admirably set off by black molding extending around the car and double ivory stripes following the molding.

Placing of such items as motor-eter, dash gasoline gauge, automatic windshield cleaner, bumpers and bumperettes, four-wheel brakes, spare tire and cover, rear vision mirror and other items in the realm of standard equipment is recognition by Olds engineers of the increasing demands of present-day driving conditions. It is a far cry from the first Oldsmobile, built thirty years ago, which, according to stories by old-timers, carried a whip-socket on the dash because the buggy maker who manufactured them was "danged if he'd make them any different."

## TIME TO DO SOMETHING

The man with rips in his coat or buttons torn off should either get married or divorced.—Blairmore Enterprise.

Being now a married man, the editor of the Blairmore paper should know what he is talking about.—Bassano Mail.

## TAKING THE CENSUS OF THE GRIZZLY BEARS

One of the strangest attempts at taking a census is now being made by Andrew Widsden, of Bella Coola, B.C., according to information received by the Canadian National Railway officials at Prince Rupert. At the request of Harlan I. Smith, of the national museum of Canada, Mr. Widsden is taking a census of the grizzly bear population of some eleven valleys, along the fjords which are included in the "Norway of America" traversed on the steamship journey between Prince Rupert and Vancouver.

The coast line between these two ports is a noted big game hunting spot and attracts many grizzly hunters each year from all sections of the continent as well as from other parts of the world. In order that it may be known to what extent grizzlies roam in these territories, trappers and hunters in this region, which is in and about Mackenzie park, named for the famous adventurer-explorer, have been asked to make a careful record of the number of grizzlies they encounter on their journeys through the forested slopes of the mountains.

This work has been going on for some time and the reports from the men of the woods are now in the hands of Mr. Widsden, who is compiling them and will shortly announce the result.

## MAN AND WOMAN

I can't figure out to save my life why some women just naturally always take everything personal. The other night Josephine and me wuz settin' one on each side o' the lamp as peaceful like as you please and all of a sudden she bust right out loud, laughin' and she looked at me over the top of her paper with that "now I've got a good one on you" expression on her face and she read me this: "Scientific investigation proves the ingredients of a man are—"

"Fat enough for a bar of laundry soap."

"Iron enough for two nails."

"Sugar enough to fill a teacup."

"Lime enough to whitewash a chicken coop."

"Phosphorus enough for a box of matches."

"Potassium enough to explode a toy pistol."

"Sulphur enough to rid a dog of his fleas."

"But all this junk can be bought at an corner store for 39 cents."

Well, whenever Josephine sees humor in a silly piece like that I don't agree with her. I just ret're with dignity. Now I retired all right, but I couldn't sleep, and purty soon the answer come to me as a natural inspiration, and I got up and told her gently that I had at last analyzed the subject of women as men had been trying to do ever since the world began.

"Woman," I said, "has been proven to contain—"

"Starch enough to be all stuck up with herself."

"Brass enough to butt in anywhere."

"Gall enough to embitter the sweetest male disposition."

"Paint enough for an Italian sunset."

"Powder enough to blow up a dreadnought."

"Fortune enough to gas a regiment."

"All of which can be had in any department store for 32 cents."

The next mornin' I got my own breakfast.—Farmer Putnam.

Keeping Her To Her Bargain

"A penny for your thoughts, Sandy," said Jean.

"Well," said Sandy, with sudden badness, "I was thinkin' I'd like to kiss yo, lassie."

Jean blushed but made no objection, and after the kiss they inposed into silence. Presently Jean said, "And what are ye thinkin' about noo, Sandy. Another kiss?"

"Nae, lassie, it's mair serious, this time. I was just wonderin' when ye're goin' to pay me that penny for my thoughts."

Some local lads who have undertaken a petty-thieving campaign had better quit early or they will land in the hands of the police, who have a pretty fair idea of who they are. During the week cigarettes have been stolen from the warehouse of Plunkett & Savage, entry having been made through a front transom. A number of gardens have also been tampered with.

## Medically Located

"Where was he struck by the motor car?" asked the coroner.

"At the juncture of the dorsal and cervical vertebra," answered the surgeon.

"Uh-huh. Well, now, will you please point that out on th' map, doc?" said the coroner, indicating a diagram of the city which hung on the wall.

## Making a Convenience of a Business

Many there are who make of a legitimate and well-established business nothing but a convenience—a place from which to get odds and ends when there is no time to go farther afield. They do not hesitate to send their money away for many things they need, and which could just as satisfactorily and much more promptly be supplied by their home merchants and dealers. No business, no matter of what nature, can long exist on this sort of patronage. The public expect to receive services as and when they demand it; but many do not do their part in making this possible.

There are manufacturing industries with fairly complete equipment which, because of such lack of consideration, are idle much of the time. It must be patent to all that a busy plant can be operated much more cheaply than one which is working only on part time. Therefore, it should be the policy of all to place their business of whatever kind it may be with the local plant or factory to the end that it may be kept reasonably busy and thus be in a position to give its best service.

When it is printed matter of any kind, remember the plant and equipment of

## The Blairmore Enterprise

If girls were spanked nowadays, they'd suffer more than their grandmothers ever did.

Constable Hammond returned last week from a vacation spent mostly at the Pacific coast.

The man who rises every time he falls is likely to find himself "getting there" not-with-standing.

### Regina's New Hostelry

1. The Library. 2. Tea Room. 3. "Hotel Saskatchewan".

The new hotel was conceived and designed with two considerations always uppermost in the minds of its creators: the maximum of comfort and convenience for its guests and a pleasing architectural effect. With the desired result in mind the architects have developed a design which is singularly pleasing and which will be regarded as one of the most beautiful buildings in Western Canada.

The exterior of the building is designed in Georgian style, the first two storeys above the street being faced with Tyndal stone, quarried near Winnipeg. The main entrance has been treated with Corinthian pilasters.

The Hotel is an eleven-storey building, containing 216 bedrooms with baths, and many beautiful public rooms and administrative offices. Two storeys with space for more guest rooms have been left uncompleted.

One of the most pleasing rooms in the Main Lobby is overlooking the Park. The treatment of this room has a Spanish character, the antique decorated plaster, and large carved fire-place giving it a pleasing effect. The ceiling is heavily beamed and paneled.

The Ball Room, of a George Adams design, is on the first floor, as are also, the Lounge, the Library and the Writing Room.

The mechanical equipment is of the most modern design, all the services being practically self-contained. The hotel has its own refrigeration and electrical generating plant.

The latest addition to the chain of Canadian Pacific Hotels, the "Hotel Saskatchewan," which was officially opened by President Beatty, on May 24, is a modern hotel of a character in keeping with the importance of the Capital City of the Province which furnishes 50 per cent. of the Dominion's wheat output. Regina—"Queen City of the Plains," which has been rapidly developing into one of the great cities of the continent, has long felt the need of a new hostelry. As long ago as 1913 the erection of an hotel was actually started, but when the War came along this project was abandoned, and the unfinished steelwork has remained exposed ever since until it was removed last year. The removal of this old steelwork marked the first step towards the realization so long delayed of the first dream of a splendid new hostelry, which has at last been brought about by the enterprise of the Canadian Pacific.

### Here and There

Experiments in the Pacific Coast methods of halibut fishing are now being made by R. B. Gann, of Vancouver, N.B., with his new halibut fishing boat, "Fannie Powell II.," following his extensive studies on the Pacific Coast.

The Canadian Pacific's gross earnings for the first quarter of the year were the largest on record for that quarter, at \$43,236,009, or an increase of \$2,891,051 over the corresponding quarter of last year. Not, however, was a little lower than last year at \$4,462,623, compared with \$6,531,067.

Madame Jane Slon, champion of European women swimmers, arrived in Canada about the middle of May on the Canadian Pacific steamer "Montclair" from Antwerp. She will take part in various swimming marathons in Montreal and other centres in both Canada and the United States, including events at the Toronto Exhibition.

The total catch of seafood on both the Atlantic and Pacific coasts during the month of March showed an increase of nearly 5,000,000 pounds over the catch for the same month last year. The catch amounted to 31,083,400 pounds, valued at \$1,224,786, according to a report of the Department of Marine and Fisheries. The increase was due to the increased catch of herring on the Pacific Coast.

Two thousand poultrymen from the United States will attend the forthcoming World's Poultry Congress, to be held at Ottawa July 27 to August 4. The delegates will be headed by the Hon. W. M. Jardine, Secretary of Agriculture, officially representing the Government. He will be accompanied by assistant secretary R. W. Dunlop. Some 25 States are participating.

That the prospects for British settlers coming to New Brunswick were good; that, in fact, arrangements had already been made for bringing a substantial number of British families to this province, was asserted by J. A. Murray, provincial superintendent of Colonization and Industry, who has returned from England where he was acting in the interests of the Government. He has received many enquiries as to the settlement prospects in New Brunswick.

That Calgary district has again taken its place in the front rank as a producer of horses in the Dominion was pointed out by G. H. Hutton, President of the Calgary Rotary Club, who declared that 37 carloads of horses had been shipped east from Calgary in three weeks, recently. Indicating the growth of the industry in the district he referred to the large number of entries received for this year's Horse Show, totalling more than 800, as compared with 600 last year.

Evidence of the interest in the new departure among Canadian Pacific locomotives known as the G-3-d type or "Pacific" engine in its remarkable combination of greatly increased power and efficiency with very slightly increased weight, is furnished by the fact that principals of twenty-five technical schools in the east of Canada and nine in the west have requested photographs of this locomotive with a view of hanging them in their schools for the information of the children.

PRODUCT OF GENERAL MOTORS OF CANADA, LIMITED

Mr. and Mrs. Joseph Davis, of Riverview, Washington, stopped off here on Sunday, enroute by motor to visit friends at Macleod and Taber. They were accompanied by Mrs. Davis' mother, Mrs. James Milne, of Taber, who had been visiting them in Washington.

Details of the British Government's exhibit at the World's Poultry Congress, to be held at Ottawa, July 27th to August 4th next, have been received by the Congress committee. Heading the list of exhibitors from Great Britain is His Majesty the King, who has signified his intention of exhibiting pigeons, while H.R.H. the Prince of Wales is sending along some chickens from his famous farm in Cornwall. The British exhibit will consist of models of the poultry farms of Lord Dewart and Tom Barron, two of the best known poultry breeders in England. Hon. Mrs. Florence Amherst and St. Dunstan's Hotel for the Blind are also participating. The British representation will include many technical features. Official British delegates to the Congress are Sir Francis Ploud, permanent under-secretary to the Ministry of Agriculture, and Fisheries, and Percy Francis, Poultry Commissioner to the Ministry of Agriculture.

Immigration to Canada in the ten months of the fiscal year ending January 31st, amounted to 118,199, compared with 76,439 for the same period of 1925-6. This is an increase of 55 per cent. January immigration amounted to 4,164, compared with 2,324 for the preceding January, a gain of 79 per cent. Of this immigration 899 were British, 905 from the United States, and 2,360 from other countries. During January, 2,297 Canadians who had gone to the United States with the intention of remaining permanently returned to Canada, making a total of 50,898 so returned for the ten months of the fiscal year.

Gene Tunney, world's champion heavy weight boxer, arrived in Montreal at the Canadian Pacific Windsor Street Station, May 6, and proceeded north to Macleod in the Laurentian Mountains. From here he proceeded by motor to Five Fingers Lake, spending several days fishing. Tunney was accompanied on the outing by W. O. McLaughlin, sporting editor, New York Herald-Tribune, and W. A. Davenport, of Colliers Weekly. Mr. Tunney declared that he was scheduled to fight the winner of the elimination match this year. He visited Canada in 1920 and 1921, when he went into the lumber camps operated by the Booth organization in order to harden his hands.

## Diamond Jubilee Inspires Song

GORDON V. THOMPSON.

Canada's Diamond Jubilee has been the inspiration that led to the writing of a new Canadian song "At The Canada Jubilee" which has recently been published to commemorate the sixtieth year of confederation.

Its composer, Gordon V. Thompson, has already established the reputation of being one of Canada's leading song writers. His popular war songs composed and published during the stirring days of 1914-18 are well-known. There are few who do not know by heart the airs of "When Jack Comes Back", "Khaki" or "When Your Boy Comes Back to You", three patriotic songs in particular composed by Mr. Thompson during the war.

Mr. Thompson composed this new song recently while staying at the Chateau Frontenac at Quebec. Here at the very birthplace of Canadian history Mr. Thompson felt the urge to write something that would express the joy of Canadians at the coming great event. Having produced "At The Canada Jubilee" Mr. Thompson felt that another song, expressing the optimistic sentiments of Canadians, would be exceedingly appropriate. "Land of Glad To-Morrows" was the result of this inspiration which the composer feels expresses something of the optimism for the future throughout Canada at the present time.

The Hon. William D. Euber, Minister of Customs and Excise, announces that the present period of 30 days of free entry into Canada of United States motor tourists on a permit will be extended to 90 days, to conform with the privilege now granted by the United States authorities, who admit Canadian cars carrying motor tourists free into that country for 90 days. The only difference will be that the Canadian permit will not initially be for 90 days, but for a first and second 30-day extension, if and when the tourists can show bona-fides and recommendation from reputable associations of automobilists in the United States. A larger tourist in Canada is expected to result from the change.

E. W. Beatty, Chairman and President of the Canadian Pacific Railway, has offered \$5,000 in prizes for the 1938 musical festival to be held at the Chateau Frontenac, Quebec. The Folk Song festival recently concluded at the Ancient Capital was an outstanding musical success, being carried out for the first time. The prizes offered by Mr. Beatty will be for musical competitions based on French-Canadian chansons populaires and folk melodies. J. Murray Gibson, Canadian author, who has translated many old French-Canadian folk songs, is largely responsible for the success of the recent Festival at Quebec. Judging from press comments in all parts of the continent these old songs of French Canada are fast gaining in popularity.

## Here and There

An honor was conferred upon Captain James Turnbull, C.B.C., R.N.R., commander of the Canadian Pacific steamship *Montclair* recently, when he was appointed Aide-de-Camp to His Majesty King George V.

All golfing records were shattered recently when K. Tanaka, local Japanese golfer, playing on the Canadian Pacific course "Lanara," scored a hole in one twice in one round of the eighteen-hole links. The first was obtained at the fifth hole which is 115 yards, and the second at the sixteenth hole, which is 210 yards.

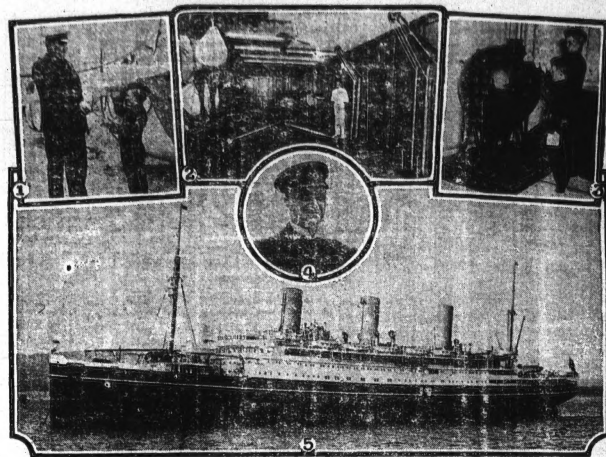

During the month of January of the present year automobile production in Canada has increased 88 per cent. over and above the production for the corresponding month of last year, being 15,376 cars, as compared with 7,722 for the previous year. Almost half of the cars produced were for export, according to the Dominion Bureau of Statistics.

In memory of the late Col. George H. Ham, of Montreal, dean of railway publicity men in North America, a beautiful memorial porch is being erected over the door of St. John's Church at Whitty by the members of the Women's Canadian Press Club. The late Col. Ham died in Montreal on April 16 last.

Nara, Japan. — Eleven passengers on the Round-the-World cruise of the Canadian Pacific flagship *Empress of Scotland* squeezed through a rectangular hole in a pillar just beneath the colossal image of Buddha in the Dabotou Temple here yesterday, thereby achieving, according to ancient tradition, the short road to Paradise.

The Board of Control at Toronto have formally accepted the offer made by Sir Leicester Harnsworth, English Baronet, of Mournie's portrait of General John Graves Simcoe, after whom the County of Simcoe was named. General Simcoe set up his first government at York, now Toronto. The painting will be hung in the Toronto City Hall, already adorned with a collection of historical paintings recognized as one of the finest of its kind in America.

## Canadian Pacific Pride for Atlantic Service

1. The Tallest Officer and Smallest Boy on the Ship. 2. Interior of Gymnasium. 3. German Floating Mine Form a Novel Letter. 4. Captain R. G. Latta, R. N. R., Commander of the Empress of Australia. 5. Latest Photo of the Canadian Pacific Empress of Australia.

Formerly on the Pacific Service of the Canadian Pacific Steamships Limited plying between Vancouver and the Orient, the *Empress of Australia* has for the past six months been in Great Britain, in the hands of Fairfield Shipbuilding Company by whom the vessel has been completely re-engined and re-conditioned, so that she is entering the Atlantic service in her new career virtually a new ship.

This luxurious vessel displaces 21,850 tons, and carries 1,178 passengers. In the luxury of her fittings the *Empress of Australia* is the pride of the Canadian Pacific fleet. Specially attractive are the high-domed dining rooms in the style of the

French Regency and the Louis XIV, smoking room with its oak panels and tapestry decorations. Tourist third class passenger traffic across the Atlantic which is greatly on the increase, is catered to on generous lines, the accommodation provided being equal to what most first class passengers got twenty years ago.

The *Australia* took her first trip from the Clyde to Southampton in June and answered every test. She developed four knots a hour above her schedule with a fuel consumption less by fifty per cent. At Southampton Mayor P. Boyer, who is also ex-officio admiral of the Port, headed a civic welcome to the ship and was welcomed on board by Sir George

McLaren Brown, European General Manager of the Canadian Pacific. Under the command of Captain R. G. Latta her second voyage will be honored by the Prince of Wales and Premier Baldwin of Great Britain and Mrs. Baldwin, on July 23. Commander Latta is known to thousands of passengers from all parts of America and the British Isles, having been in command of the Round-The-World cruises of the *Empress of Scotland*. This winter, however, the *Empress of Australia* will be used as the world-cruise ship of the Canadian Pacific, sailing on this well-known four-month voyage to the four corners of the earth from New York in December.

Owing to the rainstorm of Monday night, Grand Master V. V. Christie, of Cardston, was unable to reach Blairmore to attend the I.O.O.F. meeting on Tuesday night. It is now hoped he will be able to pay an official visit here on the night of Tuesday, September the 20th.

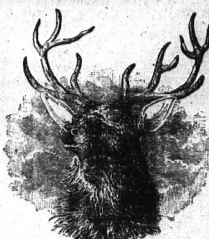

Dr. John C. Wichmann, a chemist of Los Angeles, has been experimenting a long time with all kinds of cactus, and at last has arrived at the conclusion that seventy-five billion pounds of rubber can be made from the spiny plants now growing in the United States.

A deal has been put through by which Messrs. Johan L. Johansen, of Edmonton, and John F. Mahoney, of Calgary, will take over the Cosmopolitan hotel from J. S. Stevenson. The transfer will likely be made towards the end of September.

**BLAIRMORE UNITED CHURCH**  
Rev. J. W. Smith, Pastor

Serve the Church that the Church may serve you.

Services for Sunday, September 11th, the Pastor in charge.

**MORNING SCHOOL**, at 11 o'clock. A school for Young People. On Sunday morning, Mr. Smith will begin a series of five-minute talks on the Psalms. The general subject for the Senior Classes will be: "Medical Missions."

**AFTERNOON SCHOOL**, at 2. A school for boys and girls, under 12 years. After the lesson, Mr. Smith will show you something more from "Old China."

**EVENING WORSHIP** at 7.30. This service will be a special "Labor Day Service," to which the men are especially invited. The Pastor's message will be a straight-from-the-shoulder talk to all who labor.

**ANNOUNCEMENTS**  
Sunday, September 18th, will be "Harvest Home." Have your gifts of fruits, flowers and vegetables ready. Watch for a full announcement next week.

The following Sunday, September 25th, Miss Theresa M. Seigal, of Calgary, will give a Dramatic Recital, "The Mansion," by Van Dyke, in the evening worship. This will be followed on Monday night by a programme of Humorous and Dramatic Readings by Miss Seigal and music by others. Full particulars will be announced later.

**THINK THIS OVER**  
There is nothing more precious than a little child.

There is nothing sweeter than the smile upon its upturned face. In all our human relationships, there is nothing more sacred than the faith of a little child, or more complete than its trust.

So, too, nothing is so easily married; so easily hurt as a child.

Yet in all this world there is nothing that will respond so quickly or so beautifully to good example or tender love as with a little child.

All these truths come vividly to our minds as we read the following lines by Edgar Allan Guest:

There are little eyes upon you, and they're watching night and day; There are little ears that quickly take in every word you say; There are little hands all eager to do everything you do.

And a little boy that's dreaming of the day he'll be like you.

**THE FLOWER SERVICE**  
The flower service held on Sunday night proved exceptionally interesting to those who were fortunate enough to be present. The church was very tastefully decorated with flowers of all descriptions from the gardens of the donors and a better display has probably never been seen in this district. Mr. Smith's sermon centered around these beautiful flowers and around the beauty of God's creation of all things, and his words fitted very nicely into the atmosphere created by the surrounding flowers. The senior choir, while not up to full strength, were in their places, after the summer vacation, and led the singing. Two solos were rendered by Mr. Arthur Hadwell, of Bellevue, entitled "My Mother's Prayer" and "Rock of Ages." Mr. Hadwell is a noted Welsh singer and his rendering of these two solos was very much enjoyed indeed. Mr. Phillips, baritone, of Coleman, sang "Lead Kindly Light," which was also greatly appreciated, while Messrs. Hadwell and Phillips sang a duet entitled "Watchman, What of the Night" in a very able manner. We hope to have the very great pleasure of hearing these two fine singers again in the very near future. At the close of the service the flowers were distributed among those who were sick and the aged of the town and no doubt took their message of comfort and cheer into these homes. This, our first flower service, was indeed most successful and will be looked forward to another year with anticipation.

Rev. Mr. Smith is this week attending a special meeting of the Macleod Presbytery, which is being held at Taber.

**THE EMPIRE MINING CONGRESS**

In the course of their trip through the mining areas of Canada, the members of the British Empire Mining Congress are having an exceptional opportunity to acquaint themselves with the character of the successful mining enterprises now operating in Canada and to form a well balanced opinion as to the possible future development of the mineral resources of the Dominion. The disinterested reports which will be received from this congress by the great mining companies of the world, and particularly those of Great Britain, are likely to awaken a lively interest and it is a conservative prediction that a period of increased activity lies ahead of the Canadian mining industry.

Already, mining is an important Canadian industry. In 1926, the ten most valuable mineral products of Canada were coal, gold, lead, copper, nickel, silver, cement, zinc, asbestos and natural gas. The total value of mineral production in 1926 amounted to \$241,246,000, of which amount more than 80% was accounted for by the ten products mentioned.

Value of mineral products from Canadian sources:

	1926	1925
Coal	\$59,797,000	\$49,262,000
Gold	\$6,142,000	\$5,881,000
Lead	19,262,000	23,127,000
Copper	17,287,000	15,550,000
Nickel	14,374,000	15,947,000
Silver	13,334,000	13,371,000
Cement	13,013,000	14,045,000
Zinc	11,997,000	8,328,000
Asbestos	10,095,000	8,988,000
Natural Gas	8,238,000	6,833,000

The department of mines at Ottawa has prepared a book entitled "Canada—Geology, Mines and Metallurgical Industries" for presentation to the members of the mining congress. The book presents a resume of Canadian geology and of the mining and metallurgical practice of Canada, together with a brief history of the more important mining camps which are being visited by the congress. In addition to this booklet, the department of mines has prepared a number of special bulletins dealing with important phases of Canadian industrial life.

**SHARKEY IS STILL A BIG CONTENDER**

PHILADELPHIA, Sept. 6.—It was most unfortunate for the fight game that Jack Dempsey's victory over Sharkey wasn't more clean cut. The claim of foul will always belittle the unexpected comeback of the former champion.

Under his signature, several days prior to the fight, there was a statement by Jack Dempsey that his only fear was he might lose the fight on a foul. From that, one would gather that Dempsey intended to confine his attack to the waistline or thereabouts.

The detailed account of the fight bears out that belief, for Dempsey at every opportunity kept pumping rights and lefts into Sharkey's midsection, on the theory, of course, that Sharkey wouldn't or couldn't take it there.

Since a number of the leading sport writers of New York, men of national reputation, express the belief that Dempsey hit a number of low blows, particularly the one that helped end the fight, it would seem there was much justice in Sharkey's claim.

Don't get the impression that Sharkey is through as a championship possibility because of his defeat by Dempsey. He is still one of the bets to eventually win the heavyweight title.

In the nationally contest staged by the Elks at Drumheller, Miss Angelica Pozz of Frank, representing Itasca, carried off second prize, a return trip to Vancouver and \$25 pocket money. In addition she happened to hold the lucky ticket, entitling her to a nine-piece dining room suite. She has already shipped the furniture to her home at Frank. Miss Porritt, representing "Miss Canada," won first place in the nationality contest, winning a free trip to Hollywood and \$50 pin money.

**COWLEY HAPPENINGS**

J. Gilmour and family have removed to Blairmore.

Kenneth Crawford has returned to the ranch, after some time spent in British Columbia.

Rev. and Mrs. Griffith have returned home after a prolonged holiday at Banff and other points.

G. W. Buchanan, Mrs. Buchanan and Mr. and Mrs. McKelvie left this week for their home in Vancouver by motor.

Harvesting operations, which were getting well under way, have been seriously delayed by heavy rain during the week. During the previous week, grain was ripening fast and, with a continuance of dry weather and west winds, it was hoped that much of the wheat would have been taken care of within the next two weeks.

**THE "ARM" OF THE LAW**

In the domains of Hedjaz and Nejd, which are situated somewhere between the North and South Poles on the other side of the earth, when a thief is caught, his arm is cut off.

Amputation of other members of the body follows according to the offense. As we understand it, if a mule kicks somebody, they cut off his (the mule's) heels, and so on.

But in our country all is different. If any automobile driver runs over somebody, they may cut out his operator's license, and so on. For many offenses some people don't even lose their reputations.

**MORE THAN TWO THOUSAND HORSEMEN IN "BEAU GESTE"**

A greater number of marvelous horsemen than probably ever before gathered together to appear in a single motion picture, are prominent figures in "Beau Geste," which will be shown at the Orpheum theatre Friday and Saturday of this week.

The riders are western cowboys and Indians who appear as Tourages of the African deserts in this thrilling mystery story of the French Foreign Legion. According to Lieut. Louis Van der Ecker, former legionnaire who served as technical advisor to Director Herbert Brenon, the desert horsemen, although famous for their skill in stirrups, cannot surpass the riders of the west.

The Tourages, noted as warriors, wear long white robes and veils, so it was easy for the western riders to impersonate them.

After the inter-o-scenes of "Beau Geste" had been made at the Paramount studio in Hollywood, Brenon established a camp of 2000 men for a three month stay on the Arizona Desert, where the exterior episodes were made.

Ronald Colman plays the title role in Percival Christopher Wren's story. The other featured players include Alice Joyce, Noah Beery, Mary Brian, Neil Hamilton, William Powell, Norman Trevor, Ralph Forbes and Victor McLaglen.

**His First Job**

A woman was testifying in a police court on behalf of her son, and declared that he had worked on a farm where justice he was born.

The lawyer who was cross-examining her said: "You assert that your son has worked on a farm ever since he was born?"

"I do."  
"What did he do the first year?"  
"He milked."  
The lawyer subsided.

A Scotchman and an Englishman were travelling to London by train from Glasgow. The Scotchman sat glumly in his corner without speaking a word.

After an hour or two the Englishman tried to start a conversation. "It's a long and irritating journey, isn't it?" he said amiably. "So it ought to be for the money," growled the Scotchman.

**THE PASS FIFTEEN YEARS AGO**

(The Blairmore Enterprise, 1912)  
August 15.—At Monday night's meeting of the town council, a cheque was received from the Trust & Guarantee Co. for the sum of \$42.00, covering expenses in connection with the burial of Federico Calabrese.

The chief of police reported the following collections up to July 31st: fines and forfeitures \$274.50, dog taxes \$311.00, poll taxes \$621.00, licenses \$1,219.35. Fifty-six cases were prosecuted and convictions registered in all cases. Council decided to take matter up with Supt. Uren, of the C.P.R., re opening up of a railway crossing at Eighth Avenue.

A party of twenty-three laborers arrived this week from Belgium.

The marriage of Fred John Irwin, of Blairmore, to Miss Nellie Cook, of Purple Springs, took place at Macleod on Friday, Rev. Robert Boyle officiating.

The death of Mrs. Frank Wejr occurred at Frank on Saturday last and the remains were laid to rest at Blairmore on Monday, Rev. W. T. Young officiating at the burial service.

John Carroll, former proprietor of the Alberta hotel, is in charge with attempt to kill H. F. Annable, a real estate man at Taber.

Ethel Williams donated the sum of \$100 to the town's treasury on Monday.

Lethbridge exhibition takes place next week. Eighteen thousand dollars will be awarded in prizes. J. W. McNicol is manager.

Steve Humble, of Bellevue, is looking after crops on his South Fork ranch.

August 22.—Steve Rob-luk was accidentally killed in the Blairmore mine yesterday. He was thirty-five years of age and leaves a wife and two children residing in Blairmore.

James Stewart, a trained injury at the cement works on Wednesday morning. His head was severely crushed.

Superintendent Karnepp, of the Grenfell Labrador mission, was arrested, charged with misappropriation of about \$1000 of the mission's funds. He was found guilty and sentenced to a six-months' term in jail.

Macleod's new municipal hospital was officially opened on Thursday last. The new building cost in the neighborhood of \$10,000.

General William Booth, of the Salvation Army, passed away on Tuesday at the age of 83.

George Brown has returned from a three months' trip to the Maritime Provinces.

Herbert Gilley, of New Westminster, plans a motor trip to the Atlantic coast this fall.

Little Katie McGuire, aged thirteen, was burned to death at Passburg on Monday afternoon, when the family residence was destroyed by fire.

Saturday's pay-roll at Frank amounted to \$29,000.

August 23.—At Monday night's meeting of the council, a letter was received from the secretary of the Board of Railway Commissioners, re crossing at Eighth Avenue, and enclosing a letter directed to him by Mr. E. W. Beatty, general solicitor for the company. This letter stated that crossing at Eighth Avenue would be midway between the crossings at Fifth and Eleventh Avenues and would interfere with the extension of the side track which would be necessary in the near future for at least seven hundred feet. The matter was laid over for further consideration by the commissioners. At the same meeting of the council, a motion by Dutil-McLeod that By-law 13, respecting purchase of W. A. Malcolm lots for fire hall site, be read for the third time, was ruled out of order by Mayor Lyon. Motion by Dutil-McLeod, that ruling of mayor be overruled, carried, and the former motion

was again put and carried.

Bellevue football team won the Muts cup for provincial championship.

W. A. Beebe, Alie Sparks and Mike Rosse returned from the North Fork on Monday, having had several days of good fishing.

Miss L. Perkins arrived from May-Gutt, Alberta, on Thursday, to take a position on the Blairmore teaching staff.

Blairmore school opened on Monday with the following staff: Principal W. J. Verge, Miss K. B. Darrah, Miss L. M. Perkins, Miss Richardson and Miss E. M. Fulton.

Mr. C. Vinet has resigned the management of the Sanatorium hotel.

The marriage of Miss Orata, eldest daughter of Mr. and Mrs. M. Bourgois, to Mr. Samuel Thorneycroft, of Calgary, took place at the Bourgois residence on Twelfth Avenue on Saturday last.

In the Herald-Mail swimming race on August the 27th over a five-mile course between Ferguson's Cove and the Waugwoltic Club, Nova Scotia, out of 38 entrants only 11 completed the swim—all females. The winner, Miss Doris Gilfoy, made the distance in two hours and sixteen minutes.

**GETTING OUT "THE ENTERPRISE" IS NO PIRACY**

If we print jokes, people say that we are silly.

If we don't print them, they say we are too serious.

If we print original matter, they say we lack variety.

If we publish things from other papers, we are too lazy to write.

If we stay on the job, we ought to be out hustling for news.

If we are hustling for news, we are not attending to business in our own department.

If we don't print all contributions, we don't show the proper appreciation.

If we print all the contributions, the paper is full of junk.

Like as not some fellow will say we swiped this.

So we did.

## WORLD HAPPENINGS BRIEFLY TOLD

The first taxi cab appeared in the streets of Jerusalem recently. It excited a vast amount of curiosity.

An invitation to visit China to promote aviation has been extended to Col. Charles A. Lindbergh, New York-Paris flier. Lindbergh said he might accept.

More and better immigration for Canada is the prospect for 1928. W. J. Egan, deputy minister of immigration, declared on his return from a European tour that lasted more than three months.

Viscount Cecil, of Chelwood, has definitely resigned his cabinet post as chancellor of the Duchy of Lancaster, and will not go to Geneva for the meeting of the League of Nations Assembly.

Arthur Joseph Noel, the fourth Earl of Gainsborough, private chamberlain of Edward and King George VI, and Pope Pius XI, and former attaché at the British embassy at Washington, died Aug. 27. He was 43 years old.

The Soldiers Settlement Board, which has handled the placing of returned men on the land, will be incorporated in the Land Settlement Board in the Department of Immigration, reports Hon. Robert Burke, minister of immigration and colonization.

For having set fire to a stack of hay containing about 42 loads belonging to his employer, a young man named Mountain, a recent arrival from the Old Country, was sentenced at Winchester, Ont., to serve one year in the Guelph reformatory.

The University of Toronto, conferred its highest honor, the degree of Doctor of Laws, honoris causa, upon Rt. Hon. Lord Hewart, of Bury, Chief Justice of England, at a special convocation in Convocation Hall, Toronto.

Between 250 and 300 people have been killed and more than 2,500 injured in less than 15 months past as a result of religious conflicts between Hindus and Moslems in various parts of India, Lord Irwin, the viceroy, stated in addressing the legislative assembly at Simla.

John B. Simpson, a British scientist, has left Edinburgh, Scotland, with the intention of making his home in an iceberg for three months. He was accompanied by a Samoyed dog. "My purpose," said Simpson, "is to gather material for a book on the ice fields."

**A Valuable Hen.**  
An offer of \$1,000 for the famous hen No. 6 or \$3,000 for a pen of ten birds including this world record layer was turned down by the University of British Columbia on account of the great value of the bird for breeding purposes.

Buildings lined with wood are better for reproducing sound than those with wall of other material.

A blush is one of the few things that cannot be counterfeited.

## Diarrhoea Summer Complaint HE ALWAYS USES

Mr. T. F. McGregor, McLennan, Alta., writes: "Over forty years ago my mother used to give us Dr. Fowles' Extract of Wild Strawberry for diarrhea and summer complaint. All through the years since then when troubled with an excessive looseness of the bowels I have been accustomed to take a few doses of the same old, reliable remedy and it always seems to have the desired effect, no matter what cause."

**Don't Accept a Substitute.**  
This valuable preparation has been on the market for the past 80 years; put up only by The T. F. McGregor Co., Limited, Vancouver, B.C.

W. M. U. 1927

## Treasures Hidden in Desert

Many Cities Buried Under Drifting Sands During Centuries

It is not generally known that the Sahara Desert has encroached hundreds of miles eastward during the centuries since the great days of Egyptian civilization, and has in consequence buried in sand many forgotten cities and centres of population. One often thinks of the treasure lying on the floor of the ocean, but the treasure buried under desert sands must also be incalculable.

A sensational discovery was made recently, not on the Egyptian side, where the sand almost succeeded in overwhelming even the mighty Sphinx, but on the western side of the desert. The body of some ancient Queen of the Sahara was found beneath the sand. On her arms were eighteen bracelets, nine of gold and nine of silver; five necklaces of jewels were round her neck and on her head was a diadem of gold studded with jewels.

There was much exquisitely carved furniture in the tomb, and near by were piles of jewelry—emeralds, rubies, opals, and so on. On the opposite side also was found a superb statue of a woman carved in stone. The date of this tomb is placed at least a thousand years before the Christian era.

## Motor Penetrates Far North

English Woman Breaks Distance Record By Three Miles

Two British motorists who have just achieved the feat of breaking the "farthest north" record in a motor car, were turned back when 270 miles within the Arctic circle by swampy conditions, arising from the intense heat.

The Hon. Mrs. Victor Bruce and party, who have returned to London after a 6,000 miles' trip through Northern Europe to Finland and Lapland, went about three miles nearer the North Pole than any previous motorist has penetrated, and got within 40 miles of the North Cape.

She averaged 270 miles a day for 28 days, some of the journey being over rough tracks in Northern Scandinavia. The enterprise was undertaken partly with the object of inspecting the roads of Sweden on behalf of the Automobile Association, and partly purely for the sake of adventure.

Mrs. Bruce was accompanied by her husband (a son of Lord Aberdare). "One of my great ambitions," said Mrs. Bruce, "was to be able to say that I enjoyed a bath in the Arctic Ocean, but the swamps in Northern Lapland prevented us from getting to the coast at all. We went fully prepared for very cold weather, but actually the average temperature in the Arctic area which we traversed is about 90 degrees in the shade at this time of year."

"It is not so strange when you think of it that the sun never sets in summer in these latitudes. It was rather remarkable to observe the extent to which the motor is penetrating into the Far North of Europe, and I anticipate that within a very few years roads will be available for car tourists right up to the North Cape."

## Irish Free State Issuing New Coins

Design Of Young Yorkshirman Won In World Competition

From designs submitted by leading sculptors from all parts of the world, that of Mr. Percy Metcalfe, a young Yorkshirman, has been accepted by the Irish Free State Government for its new coinage.

A hen, a sow, a hare—to illustrate the food-producing power of the Irish Free State and a salmon—which is symbolic of an old Irish legend relating to the fish which swam in the "sacred well"—all had to be worked into the winning design. Mr. Metcalfe, who is being given sittings daily by King Fuad in connection with a portrait in metal which he has been commissioned to execute, declared that his Irish success was "his greatest yet." Competitions against him were drawn from all parts of the world, and included the famous Serbian sculptor Mestrovic. The designs are eight in number, from the half a crown to the farthing. In size, they will be identical with the British coinage.

## Very Likely Did

Julia Parker was seen on Broadway the other day, when it was warm, wearing a fur piece around her neck.

"My goodness!" said a friend. "How can you wear a fur in the summer?"

"Well," replied the dancer, "the animal who wore it originally used it in the summer, didn't he?"

## First Shipment Of Antelope

The first shipment of antelope from Canada to the U.S. will be made at an early date, Charles Hazer, rancher, at Lake Simcoe has contracted to deliver 22 head of antelope to a Texas banker.

## Witness Centenary Celebrations

P. Ashby and C. E. King, from Uxbridge, England, returning home on the Canadian liner Aquatona from Montreal, after a visit to Uxbridge, Mass., where they witnessed the centenary celebrations, and Uxbridge, Ont.

"The wonder metal of the age" is a fitting term for Aluminum. Its lightness, brightness, freedom from rust, and many other good qualities, make it a container par excellence for good tea. Red Rose Tea is packed only in this modern metal package.

## Japanese Plan To Fly Across Pacific

Long Distance Flights Have Aroused Their Interest

The latest successes in non-stop flights have stimulated Japanese interest in aviation and efforts are being made to launch tangible preparations for a Japanese attempt to fly the Pacific Ocean next year. It is considered that the chances of such a flight taking place or of Japanese aircraft or machines being ready for it within 12 months are small.

The decisive factor is that Japan possesses no aeroplane capable of making the journey and has no pilot, civil, military or naval, with the necessary skill and technical ability. A foreign plane might be bought but public opinion realizes that half the honor would be lost by such a proceeding.

The status of aviation in Japan is correctly reflected by the fact that Japan's record for continuous flying is only 11 hours, while two hours is the record for night flying.

The best Japanese achievement hitherto, and the only one of international note, is the 1925 flight to London via Siberia made by two civilian fliers.

Among the reasons advanced to explain Japan's backwardness are: First, that Japanese airmen have plenty of courage but lack the initiative and that enthusiasm for the art of flying which characterizes Lindbergh, Chamberlain and Erwin.

Secondly, the Japanese are "unmechanical" and lack "engine sense." For example, they often fail to notice when their motor starts missing. Thirdly, official regulations hamper practice, for the air above Japan is said to be unusually tricky, thin and full of holes of variable quality. Those facts reveal how much remains to be done before a Japanese airman can wing his way to Seattle.

## Mining Men Go To Europe

Will Investigate Treatment Of Coal For By-Products In Germany

Hon. Charles Stewart, minister of mines, and Dr. Charles Campbell, deputy minister, have sailed for Europe. Mr. Stewart is one of the Canadian Government representatives to the League of Nations conference at Geneva.

After the sessions of the League, the two officials will visit many of the industrial centres of Germany and England for the purpose of investigating the progress made in the past few years in the treatment of lignite and bituminous coal for by-products in Germany.

Producers in Germany claim that they can secure oil from coal at a less cost to them than crude oil.

## Getting Rid Of Encumbrances

It is related that John Lawrence, who ruled the Punjab seventy years or so ago and who later became Viceroy of India, used to say that when he came across a young Britisher in the India civil service who was encumbered with a wife and a piano, he hustled him about from one jungle station to another till the young man parted first with the wife and then with the piano.

Adversity sometimes transforms a coward into a hero.

## SUNDAY SCHOOL LESSON

SEPTEMBER 11

SOLOMON DEDICATES THE TEMPLE

Golden Text: "I was glad when they said unto me, let us go unto the house of Jehovah."—Psalm 122:1.

Lesson: 1 Kings 8.

Devotional Reading: Psalm 122.

Explanations and Comments

I. The Great Procession With the Ark and the Tabernacle, verses 1-5.—It was during the Feast of Tabernacles, which began on the fifteenth of the seventh month and lasted seven days (Lev. 23:34), that the elders of Israel and all the heads of the tribes brought up the ark of the covenant out of the city of David, which is Zion. "Both the House of Commons and the House of Lords were present, as we would put it, for the elders were the chosen representatives of the people, and 'the princes of the fathers'—that is, the hereditary leaders. In addition there was a vast attendance of the rank and file" (One came from Gilbeon and bore the sacred ark with its golden-bear covering and boards of acacia wood, and all its holy vessels—the brazen altar, the golden candlesticks, the table of show-bread, and the brazen serpent. On Mount Zion this procession joined the other which bore the ark away from its temporary tent erected for it in Jerusalem by David. As the two processions proceeded to the temple, Solomon and a great congregation with him sacrificed a host of sheep and oxen. The road was flooded with the streams of blood. The air was darkened and scented with the clouds of incense; the songs and dances were unintermittent. Upward the procession moved up the slope of the hill. It entered court after court, till it reached the Holy Place" (Stanley). By this lavish slaughter Solomon was honoring God in the best way known in those days. It was a primitive method of saying that king and people set no limits to their devotion to give to Jehovah. "There is something repulsive to us in this circumstance, but there is a nobility in such extravagance of slaughter. Barbaric it was, but devotional also. Before we blame them, we have to realize that they were in our purified, higher way to the service and worship of God."—R. C. Little.

## Motor Exhaust Kills Tulips

Famous Dutch Flowers Die in Gardens Of Paris

The famous tulip gardens have bloomed for the last time. They are victims of the exhaust of automobiles in the Rue de Rivoli. The bulbs were presented to the city of Paris by Dutch growers five years ago, and were planted in the Tuilleries Gardens, an ideal setting for their masses of gorgeous colors. But each year they have dwindled and it was found that the prevailing westerly winds blew up to the low walls of the boulevards, a drop of oil from the motor cars, affording an additional proof of the deleterious effect of the growing number of automobiles on the atmosphere of Paris.

## Advertising Canadian Bacon

Fine Quality Is Striked By Empire Marketing Board

That the Empire Marketing Board is following up its work is evidenced by the display advertisements in the leading papers of the United Kingdom. Home and Canadian bacon is one of the products recommended to the consumer on the ground that it has mildness of cure and the quality. It is the only meat to get an apostrophe mark for breakfast; the empire brands meet every requirement—either home grown or from Canada. The fact is emphasized that Canada sends the very best that is turned out from the packing plants.

## World's Finest Airship Station

New Building At Croydon England Is Being Completed

London, it is claimed, will have the finest air-station in the world when the new hotel being built at Croydon is completed. From terraces on the flying-ground side of the hotel visitors, while they are having lunch, tea or dinner, will be able to watch giant three-motored passenger planes ascending for Paris, Berlin, Moscow, or Constantinople.

After flying from London to Berlin, travellers will be able to proceed by organized air-stages right through to Pekin.

The crowning wonder of the new station will be the great control-tower. Here, high up in a glass-windowed chamber, experts, using every new aid science can give them, will guide the 100 mile an hour rushes of the passenger planes and also the slower flights of the big air ferries.

## Were Great Statesmen

Fathers Of Confederation Praised By Sir Arthur Currie

"No council of statesmen in the world's history has surpassed the Fathers of Confederation for keen and practical mentality, for sagacity, for judgment, for self-effacement, and idealistic vision. The road they travelled was a difficult one, beset by innumerable pitfalls. They forgot their differences, the provincial rivalries, their creeds and nationalities in their hope for a greater Canada."

This was the tribute paid by Sir Arthur Currie, commander in chief of Canadian forces during the Great War, in the course of an address before the Military Institute at Vancouver.

## Energy From The Sun

The time is near, says Charles F. Kettering, New York inventor, when the energy of the sun will be put directly to work instead of storing it up in coal and oil deposits and using it as now is done. Unaccounted billions of potential horsepower are going to waste each day, he says, because the sun's rays are not used.

## Would Look Suspicious

A certain New York judge says that when he sees a man with "receding chin, protruding jaw, a wide unsmiling stare, a drop in the eyelid, a low brow, a humpy brow, thick hair and ears set at right angles to the head," he is convinced he has a criminal before him. Anybody of that description surely would arouse a grave suspicion, at least.

## Wickham—"Do you know anything about wave lengths?"

Myers—"Sure. Half the stations are on one and the other half are on the other two."

## Make the Penalty Fit the Crime

Proposal Made That Whipping Be Added To Jail Sentence

For Stealing Cars

Whipping with a strap persons convicted of theft of motor cars is one of the amendments to the criminal code proposed in the report of the Canadian Bar Association's committee on administration of justice.

The report was presented to the association at its annual meeting by Judge E. Coatsworth of Toronto.

Judge Coatsworth urged immediate legislation by the Dominion and provincial parliaments to incorporate into the criminal code the important amendments suggested in the committee's report.

Concerning the penalties for auto theft, the committee recommended that instead of the present one year sentence provided by the code, the penalty be two months' imprisonment with a whipping in the second month with a strap instead of a cat-o-nine tails.

The committee also advised provincial legislation for supervision of persons let out on suspended sentence; for a system of parole, and for "effective dealing" with all the feeble-minded and mentally afflicted both when in court and in confinement.

## World's Finest Airship Station
